EDUCATION

Oct 2021- Jun 2023

SRM Arts and Science College
Master of Computer Applications
Percentage :84.5%

Jul 2018- May 2021

Ayya Nadar Janaki Ammal College.
Bachelor of Computer Science.
Percentage: 72%

EXPERIENCE

Minebea Intec India Private Limited | Intern Software Designer
Project: Abnormal Matter Tracker Toolbox

Feb 2024 – Present

- Developing and maintaining a Claim Management System as part of the Abnormal Matter Tracker Toolbox project. Learn from senior leaders in the company, who provided insights into the industry and software development cycle.
- Gain hands-on experience by applying my skills and knowledge to my assigned project, which will ease my entry into my work life after graduation.
- Skills utilized: Django, Python, SQLite.

SKILLS

Programming Language : Python.
Frameworks/Libraries : Django, Flask, Rest API.
Databases : MySQL.
Tools : VS Code, PyCharm, GitHub.

PROJECTS

Linear Approximation Computational Complexity with Multivariant Correlation. || [Link](#)

- The main objectives of the project to design a system that can collect and analyze data on energy consumption and emission factors from homes and industries in a specific region.
- This system will improve the precision of carbon footprint calculations and enable more targeted efforts to reduce emissions
- Skills: Python, Django, MySQL.

Virtual Learning Platform for Visually Impaired Students. || [Link](#)

- The main objective of the project was to help the visually impaired students overcome the challenges and problems they face in their academic performance.
- This system will provide them with an accessible and easy-to-use learning system that will help them learn more effectively
- Skills: Python, Flask, MySQL.

CERTIFICATIONS

- Meta Backend Developer - Coursera.
- Python and Django for Beginner - Udemy.
- Flask - Guvi.
- Python for Data Science - NPTEL.
- SQL - Sololearn.
